***Detailed Action***

1. This Office Action is submitted in response to the Amendment filed 9-25-2006, wherein claims 1 and 24 have been amended and claim 25 has been canceled.

Claims 1-24 are pending

2. The Examiner agrees with the arguments presented in the Remarks filed 9-25-2006 regarding the cited prior art's lack of a teaching of replacement of the initial CAD derived template with a new template, and thereby withdraws the rejection in the Office Action mailed 6-23-2006.

***Allowable Subject Matter***

3. Claims 1-24 are allowed

***Examiner's statement of reasons for allowance***

The following is an examiner's statement of reasons for allowance:

4. Claims 1, and 24 are allowed because prior art fails to show an SEM inspection system and method wherein an initial image matching is performed between SEM images and a design data reference image (a template), and the image with the highest correlation to the initial template is selected and replaces the initial template as the new reference template for SEM image comparison.

It is noted herein that the prior art discloses the use of reference templates derived from design data (USPN 6,479,819 to Hamashima; USPN 6,570,157 to Singh; and US Pat. Pub. No. 2002/0166964 to Talbot), and the prior art discloses image processing techniques where the image having the highest degree of correlation among templates becomes the new template (USPN 6,108,033 to Ito). However, there is no motivation to combine these teachings since neither replaces an original template derived from design or CAD data.

5. Claims 2-23 are allowed by virtue of their dependency upon allowed claims 1, and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
